Abstract: Males and females *Aphelocheirus* (s.str.) *inops* HORVÁTH, 1918 and *A.* (s.str.) *gularis* HORVÁTH, 1918 are described and illustrated, mainly from the type material in the Hungarian Natural History Museum. A lectotype was selected from the syntype series of *Aphelocheirus inops* HORVÁTH, 1918, which consists of eleven specimens belonging to four species. *Aphelocheirus* (s.str.) *tuberculipes* sp. n. from Cao Bang Province in northern Vietnam is described and compared with the closely related *A.* (s.str.) *femoratus* POLHEMUS et POLHEMUS, 1989 from West Malaysia and Thailand. New records from Vietnam are presented of *Aphelocheirus gularis*, *A. inops*, and *A.* (s.str.) *similaris* POLHEMUS et POLHEMUS, 1989.

Author Keywords: *Aphelocheirus*; Laos; New record; Taxonomy; Vietnam

Index Keywords: Aphelocheiridae; *Aphelocheirus*; Heteroptera; Inopus
