

Vietnam National Gazetteers

On 22 December 2017, the Prime Minister signed Decision No. 2079/QĐ-TTg, approving the National Scientific and Technological Task at National Level “Building the Vietnam National Gazetteers,” and assigned VNU to act as a focal point.

The objective of the task is to build and provide basic knowledge, synthesize natural, human, cultural and social conditions, contribute to the development of science and education and raise the people’s intellectual standards, to formulate policies on socio-economic development, and ensure national defense and security through the establishment of a digital book database and the national book, Vietnam National Atlas. The mission’s products include the Vietnam National Atlas, the Digital Book, the Atlas of Geographical Independence, and the Geographical Information Page. The project will be implemented during 2018-2022.
